

The 5th Xiamen Molecular
Imaging Symposium
(IMIS 2023)

Invitation

XIAMEN (AMOY), CHINA

OCT. 20-22, 2023

Dear Colleagues:

On behalf of the organizing committee, we are pleased to invite you to the fifth Xiamen Molecular Imaging Symposium (IMIS 2023). The symposium is scheduled to take place from October 20th to 22nd, 2023 in Xiamen, China, under the theme "Advancements at the Intersection of Molecular Imaging and Medicine".

IMIS 2023 will cover various fields of molecular imaging, including radiopharmaceutical development and clinical translation, optical probes and bioluminescence imaging, magnetic probes and magnetic resonance imaging, ultrasound imaging and visualized precision diagnosis, nano-imaging, and artificial intelligence-assisted medical imaging. We have invited nearly a hundred renowned international scholars to deliver fascinating presentations on the cutting-edge developments and hot topics in the field of molecular imaging, providing an excellent platform for academic exchange among professionals in the field.

We are thrilled about this exciting symposium and look forward to a stimulating scientific program and high-end educational workshops. Your support and participation make this the primary symposium pioneering in the field of the molecular imaging sciences in China.

We look forward to welcoming you to Xiamen in Oct. 2023.

Sincerely yours,

Honorary chairman (in alphabetical order)
