

February 7th, 2024

Dear Professor Steven Dodge,

As the President of the Conference of Condensed Matter Physics 2024 (CCMP 2024) which will be held during 4-9 August 2024 in Liyang, China, we cordially invite you to participate in the conference **as an invited speaker in Session 3: Non-equilibrium and Statistical Physics**. The coordinators of this session are Sheng Meng (Institute of Physics, Chinese Academy of Sciences), Dao Xiang (Shanghai Jiao Tong University), Alfred Zong (UC Berkeley, Stanford University), Leihan Tang (Hongkong Baptist University).

CCMP is a new annual conference series stemming from the conference series “International Conference on Condensed Matter Theory and Computational Materials” which has been held annually since 2002. The conference aims to address the rapid advances and to report recent developments in the field of condensed matter physics and related fields and to strengthen academic exchanges and collaborations.

This conference consists of one plenary session and four parallel sessions, and all sessions will be held in English.

**Plenary Session: New Frontiers in Condensed Matter Physics**

**Parallel Session 1: Superconductivity and Magnetism**

**Session 2: Computational and Material Physics**

**Session 3: Non-equilibrium and Statistical Physics**

**Session 4: Low-dimensional Systems and Topological Physics**

The detailed information is available on the website:

<http://ccmp2024.ioply.cn/>

Each invited talk is allotted a 25-minute presentation and 5-minute discussion. We would greatly appreciate it if you can respond to this invitation by email.

The organizing committee will cover your lodging and provide free meals during the period of the conference, and fully waive your registration fee as well.

Please do not hesitate to contact us if you have any questions. Looking forward to seeing you in Liyang.

With kind regard

Zhong Fang  
President of CCMP 2024  
Institute of Physics, Chinese Academy of Sciences
